

A woman with long, straight blonde hair is shown in profile, looking towards the right. She is wearing a dark top. The background is a bright, hazy sunset or sunrise, with the sun low on the horizon, creating a warm, golden glow. The background is out of focus, showing some dark shapes that could be trees or buildings. The overall mood is serene and natural.

## FOR WHOM

The Botavikos detox product line is an affordable natural skincare and hair care range for young residents of modern cities.

## FOR WHAT

Firstly, the cosmetic line solves the classic youth skin problems – rashes, acne, large pores, excessive sebum.

As an additional effect we have chosen protection against negative environmental factors which reduce the antioxidant reserves of skin tissue and induce the skin to lose its tonicity and smoothness.

A woman with a backpack is walking away from the camera on a city street. The street has a red-paved bicycle lane with white markings. In the background, there are modern buildings and a tall antenna tower. Three orange brushstroke overlays are positioned over the image, each containing a white icon and text. The top overlay has a leaf icon and the word 'DETOX'. The middle overlay has a smiley face icon and the text 'DE-STRESS'. The bottom overlay has a cloud with rain and a factory icon, and the text 'ANTI-POLLUTION'.

DETOX

DE-STRESS

ANTI-POLLUTION

Dust, traffic and industrial emissions, dry air, and temperature drops in winter all help to destroy the skin barrier layer, slow down metabolism, and accelerate the oxidation process in the lipid layers of the stratum corneum. Dehydration, inflammation and hyperpigmentation are the main problems faced by skin exposed to a polluted environment.

✓ Deep cleansing and proper care will awaken the inner cell energy and prolong the youthfulness and health of skin in the long term.

External factors negatively affect, not only skin, but also hair. The integrity of its structure is broken, and hair becomes porous, brittle, fluffy and difficult to style.

✓ For hair repair we have developed detox care aimed at enhanced nutrition and hydration, transforming the structure and appearance of unruly hair.

## **ACTIVE INGREDIENTS**

The active ingredients inside the formulas — plant extracts, antioxidants, natural prebiotics, vitamins, vegetable oils, minerals, useful acids — are selected for delicate effective cleansing, detoxification, high-quality moisturizing, restoration of skin flora and hair structure, and protection from external factors.

### **ANTI-POLLUTION КОМПЛЕКС**

A unique combination of amino acids — betaine, proline, serine, and inositol — which not only **protect the skin from the effects of extreme weather**, but also from **the negative effects of artificial blue light or HEV radiation**.

### **HEV RADIATION**

Such man-made pollution is produced by computers, smartphones, televisions and energy-saving fluorescent lamps. The regular excess of "digital" radiation can stimulate the appearance of age spots and skin aging.

# ***OLFACTORY HISTORY***

For the detox line, we have chosen an energetic **fruity-citrus flair** with a soft herbal note.

## **Top**

orange / grapefruit / lemongrass

## **Heart**

mandarin / carrot

## **Base**

rosewood

We find this natural combination enhances the feeling of freshness and turns daily detox care into a real pleasure.

We do not use synthetic fragrances to form the olfactory component of our products. The delicate botanical aromas of all our products are achieved with the use of natural essential oils.

## **ANTON TUT RYADOM**

On our product packaging we quote the students of the Anton tut ryadom Centre. These statements are touching, sincere and truly real, if you take a closer look. Anton tut ryadom is a fund that provides comprehensive assistance to people with autism, and families with children with ASD and other special needs (on the spectrum).

Revenue from the sale of Botavikos detox skin care and hair care cosmetics will be partially donated to the fund. This is the least we can do to support the project and its social values.

# CLEANSING BALM

## permanent makeup remover

### Active components

- peony, blackberry, blueberry, green tea extracts — 8%
- shea butter — 10%
- vitamin E — 2%

Action	Result
<ul style="list-style-type: none"><li>• effectively removes makeup residue and impurities</li><li>• maintains an optimal hydrolipid balance</li><li>• softens the skin</li></ul>	<b>Clean radiant skin without feeling of tightness</b>

This herbal formula with **vitamin E** is designed to effectively cleanse the epidermis and restore its hydrolipid balance. Penetrating deep into the pores, the product removes permanent makeup and prepares the skin for further care. **The complex of extracts - peony, blackberry, blueberry, green tea -** has a tonic and antioxidant effect, and reduces the skin's reactivity to pollutions.

Due to the high content of **shea butter**, the balm has a pleasant texture, intensely moisturizes, and helps to reduce irritation and peeling. The product is easily washed off the skin, giving it a softness and natural radiance.

<b>Directions</b>	<b>Shelf life</b> 2 years <b>Volume</b> 50 ml
Apply a small amount to the skin of the face, eyes and lips, dissolving the makeup with light massaging movements then rinse with warm water.	

# CLEANSING GEL

with absorption effect

## Active components
