## SHIMMERING AND FRAGRANT

Butters with the most delicate mousse texture and mild botanical aromas provide optimal hydration and nutrition for all skin types, gentle aromatherapy and a beautiful delicate shine.

- strong formula of active ingredients;
- natural aromas;
- ingredients with Ecocert certificate;
- cosmetic innovations for shimmer and comfortable powdery application without stickiness.

## SKIN CARE

**Natural vegetable coconut and shea oils** – valuable natural sources of fatty acids, vitamins and minerals. Due to the nourishment, moisturizing and softening they provide, as well as keeping the required hydration level and relieving flaking and dryness, these oils are perfect for daily skin care. The shea and coconut duo improves skin structure, making it smooth and elastic.

**Panthenol** is indispensable for high-quality skin hydration, as it can retain moisture in its outer layer, making the skin softer, soothing sensitive areas, relieving redness, and stimulating the healing of minor skin lesions such as wounds, cuts and burns.

**Vitamin E** is essential for the skin for anti-aging protection, giving it a natural radiance, and a healthy, well-groomed appearance.

Our butter-mousses are suitable for all skin types, for emergency care for damaged and sensitive areas, and for skin care after sun exposure. They can be used for emergency care of damaged and sensitive areas of skin after sunburn.

Apply to dry or slightly damp body skin after a shower, massage until completely absorbed. Recommended for day and night use.

## HYDROLATES INSTEAD OF WATER

In our butter-mousse formulas we use chamomile, camellia, and olive leaf hydrolates, instead of water. This enables us to improve the care properties of our cosmetics.

One of the general properties of all hydrolates is skin toning. In addition, each has the power of its plant:

- **chamomile hydrolate** soothes and heals the skin,
- **camellia hydrolate** relieves irritation and softens,
- **olive leaves** improv the skin condition and refresh.

Hydrolates appear during steam distillation of raw plant materials (flower petals, herbs, leaves, bark) in the process of essential oil production. It can be called a by-product, and therefore additional water resources are not used. Thus, the idea of responsible consumption is endorsed.

## PERFECT APPLICATION

Butter mousses are unlike common pure butters. Despite the high content of shea and coconut oil, there is no sticky or greasy feeling when applied. This is because sodium carboxymethyl starch, included in the butter mousse composition, creates a lightweight mousse texture without affecting the care properties of the oils. It forms "capsules" containing water and oil. When the butters are applied and rubbed, these capsules are released.

As a result, we get a very pleasant powdery touch to the skin; butter mousses are instantly absorbed, and nourishing, and moisturize the skin perfectly.

## AROMA

Essential oils are responsible for the aroma in our butter mousses. We repeat the composition of our oil perfumes, focusing on floral, citrus and oriental ones. Each of the three compositions is collected from 7-10 natural essences by a professional perfumer.

Juicy cadences of citrus fruits with an innocent candy sourness, and citrus peel wax in the midst of a blooming summer day; or lush, sensual rose and jasmine flavoured with fantasy musk; or the volume and brilliance of oriental spices in a magical, powdery, woody scent — choose your aromatherapy scent for all day-long inspiration.

Soft aromas add beauty and sophistication to your every-day skin care rituals, leaving behind the wonderfully alluring scent of Botavikos oil perfumes, lingering and intensifying in the air.

## WHY DO THEY GLOW?

A natural, delicate shimmer is obtained from mica of natural origin. All the components — mica, titanium dioxide and iron oxides — are Ecocert certified, which means they are approved for use in natural cosmetics, safe for nature and human health.

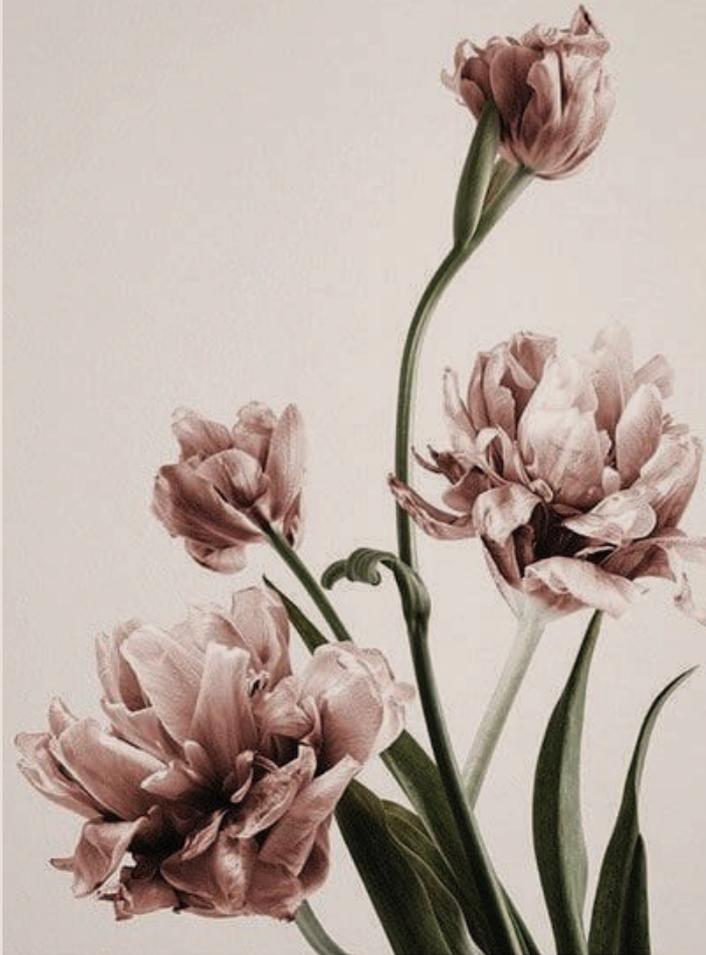

Tiny golden or silver particles give the skin a faint, very delicate radiance, and an even skin tone.

A warm golden shimmer is perfect for dark or tanned skin, and a cool silver shimmer looks wonderful on fairer skin.

THE INGREDIENTS WE USE IN OUR  
BODY BUTTER MOUSSES TO MAKE YOUR  
SKIN BEAUTIFUL:

- ✓ **vegetable coconut and shea oils** to nourish, moisturize, soften and protect the skin from negative external impacts;
- ✓ **panthenol** to moisturizes intensively and soothes sensitive skin areas;
- ✓ **vitamin E** to prolong the youthfulness of your skin, and to replenish moisture, nutrition, elasticity and tone;
- ✓ multicomponent fragrant **compositions of essential oils** that have an aromatherapy effect, revealing the strength and harmony of the fragrant essence of nature;
- ✓ **sodium carboxymethyl starch**, which creates a powdery effect for a comfortable application without that sticky feeling;
- ✓ **mica of natural origin**, Ecocert certified, for a beautiful sensual shimmer, completely safe for humans and nature;
- ✓ **safe preservatives**, internationally certified and approved in natural cosmetics.

# PERFUMED BODY BUTTER MOUSSE WITH GOLDEN GLOW

Rosewood – Litsea Cubeba

Lemon / lemongrass / tangerine / jasmine / ylang-ylang / rosewood / rose / litsea cubeba / amber / musk

Effect

Soft moisturized skin with a natural golden glow

Natural butter-mousse with a delicate texture and a juicy floral-citrus scent cares for the skin and has an aromatherapy effect.

**Vegetable shea and coconut oils** – take care of the skin, providing the necessary nutrition and moisturization, softens well, smooth and protect against negative external impacts.

**Panthenol** – enhances the moisturizing properties of the butter mousse, retaining moisture in the upper layers of the skin, soothes the most sensitive areas, relieves redness, and eases the skin condition after exposure to the sun.

**Chamomile floral water** – tones, soothes the skin, heals, and softens.

**Tiny golden particles of mica\*** of natural origin (Ecocert) give the skin a delicate golden shimmer, and evens out skin tone and complexion.

This pleasingly, light **composition of essential oils** invigorates and refreshes, while hinting at the beauty and freshness of an endless summer day, filled with cadences of citrus fruits with an artless candy sourness, and the floral notes of lush jasmine, honey rose and aquatic ylang-ylang.

## PERFUMED BODY BUTTER MOUSSE

Cinnamon - Cardamom

Cardamom / ginger / rose / jasmine / ylang-ylang / rosewood / cinnamon / cloves / patchouli / benzoin gum / musk / amber

**Effect**

Maximum hydration, flawless, healthy looking, smooth skin with a natural radiance.

This light butter-mousse with a delicate oriental scent moisturizes and nourishes the skin amid gentle aromatherapy.

**Natural shea and coconut oils** - revive extremely dry skin during periods of seasonal exhaustion, and protect from aggressive environmental impacts, eliminate tightness and flaking, soften and even out the skin.

**Panthenol** - enhances the moisturizing properties of the formula, soothes damaged skin after exposure to the sun, relieves redness, and helps to maintain optimal water-lipid balance.

**Vitamin E** - cares for the skin's beauty and youth, giving a pleasant natural radiance, and tone.

**Floral water of olive leaves** - has a beneficial effect on the skin condition and appearance, giving additional tone.

The hot oriental aroma of the butter mousse has a warming and relaxing aromatherapy effect. It is filled with spices and flowers: cardamom and ginger gradually give way to dense, juicy floral notes of rose, jasmine and ylang-ylang, and the spicy heat of rosewood, cinnamon and cloves.
