NATURAL. FAIRY. LIMITED.

BOTAVIKOS X LitRes collaboration resulted in a limited line of natural hand creams, inspired by female leads of Russian fairy tales. Together with LitRes we are going to tell five aroma tales. Listen.

In our creams for daily hand skin care we use vegetable oils, vitamins, acids, membrane-lipid complex, and perfume compositions from essential oils for sophisticated aromas and soft aromatherapy. The specific feature of the formulas is the high content of active botanical extracts, which literally walked out of the pages of Russian tales along with their female leads.
